MEMORANDUM

TO: Wrestling Promoters

FROM: Keith E. Warren
Executive Director

DATE: June 25, 2020

RE: Revised Guidelines for Professional Wrestling Promotions

The number one goal is to protect the health, safety and welfare of participants, promoters, and spectators with the new health guidelines. Our primary objective is to adhere to guidelines of proper hygiene and social distance guidelines to do our part in not spreading the coronavirus.

It is very important for you to communicate with your entertainment venue for your event, local health department for any additional guidelines regarding spectators and the use of personal protection equipment while in attendance. **As the promoter, you are responsible for submitting the information outlined in the Pre & Post Event Checklist included in this email. Each participant (just those competing or performing) are required to have an initial COVID-19 negative test results or an IGG Antibody Test prior to the event. The promoter is required to screen each participant there after completing the attached form to include a temperature reading performed. The guidelines outline when all required documentation is to be submitted to the Commission Office before and after each wrestling event.**

COVID-19 testing sides are available through the Alabama Department of Health at <https://dph1.adph.state.al.us/covid-19/> or by calling the COVID-19 24/7 Hotline at 1-888-264-2256.

AAC Commissioners and Staff appreciates your cooperation and patience during this time. These guidelines have been thorough reviewed and discussed in cooperation with the Medical Advisory and in addition to reviewing other states as well.
